

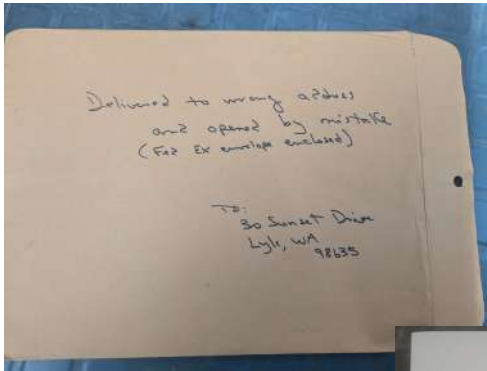

Exhibit 3

Fedex was hired to deliver this letter by Attorney Meredith Smith but failed. No signature required. This is how letter arrived weeks later.

Is this letter a cruel joke?

How can Attorney Meredith Smith initiate a Probate procedure on a “deceased” Mr. Putnam and shortly later ask Police for *multiple welfare checks*? Incredible. Cognitive Dissonance?

Attorney Meredith Smith never sent letters to survivors or inquired about an an obvious “Will”, which Ms. Karen has in her possession. It is clear evidence of a conspiracy to defraud.

There was no missing person report, or attempt to contact Mr. Putnam by post, email or phone. He has multiple websites that are listed when Googling his name. Parents, siblings, friends, neighbors...

This letter is clearly illegal on logic (and technicalities), but more so it is truly malevolent behavior on Attorney Meredith Smith’s part. Conspiring to steal a family home. She should face disciplinary action or at very least “ethical violations” and withdraw immediately. There is no justification or excuse for calling for a welfare check AFTER starting a Probate Procedure.
