

Framework for an Armistice

August 2024

Dear Mr. Monkhouse:

I am reaching out to you with an olive branch regarding the warfare in the Putnam family.

I am sure you agree with me that ongoing dispute has already caused immeasurable harm to Brig, Soren and Reidar. Scott believes he will prevail on the merits of Probate Hoax and the Crampon Hoax, and that a significant financial penalty will be enforced against you. However, he is deeply concerned that the under-oath testimony and exposure to prosecutorial depositions (entrapment) of the boys in court will cause incredible harm, and put them in the cross-fire.

Scott seeks a "Truce" or "Armistice" with Lise-Anne, and has engaged me as an emissary to find out if you also seek an end to hostilities. This is not proposal for a specific negotiation, but at this stage, my role is to extend an olive branch to determine your level of interest in a settlement. Ultimately professional mediators and lawyers would be employed to draft a specific agreement.

The proposed framework for a settlement would necessarily include a cessation of all current legal affairs in France and USA. This includes all criminal and civil actions, without exception. There are no longer custody issues with the children since they are legal adults.

Both parties would also waive the right to any future litigation, and create a legal fortress to protect the children from depositions, subpoenas, cross-examinations and psychological evaluations. The harm caused by this process would be devastating.

If you have specific questions, or requests for a more detailed framework, I will work as an emissary to get back to you. If you no interest in settlement, then I will take your silence or failure to respond as the same answer.

I can be reached at the following:
